

Dear all,

We are delighted to tell you that we have achieved 100% Level 4s in Key Stage 2 for Maths and Reading which is fantastic news for both children and staff. In both our Key Stage 2 and Key Stage 1 the results are much improved on previous years.

Everyone, both in and out of school, has had to work hard this year to meet the requirement of OFSTED to rapidly improve. These results are proof of the energy and skills of all our teachers, teaching assistants who have worked so hard to improve standards across school. The non-teaching staff should not be forgotten too as their invaluable work in the office and behind the scenes enables the school to function as well as it does.

We would also like to thank the governors who have supported and monitored this process, over the last year which has demanded a substantial commitment from everybody.

Mrs Brown has worked tirelessly leading the staff to such improved standards and we would like to thank her for her continued passion, vision and professionalism during what has been a challenging year.

Finally we would like to thank you and your children for all their hard work in achieving such great results. We hope that you, the children, staff and governors are all able to enjoy the summer holidays in the knowledge that the hard work by everyone has paid off. We look forward to the Autumn term and the challenges next year will bring us.

With best wishes and thanks

Jan Tetley and Charlotte Lyon
Chair and Vice Chair of Thorpe Willoughby Governing Body
