

Dear Parents

Welcome back! We hope you had an enjoyable holiday and haven't got too sunburned! These are just a few of the activities that we will be covering this term.

TOPIC - 'Which country has 40% of the world's plant and animal species?'

Our Geography topic this term is about South America. The children will have lots of interesting questions and we will be answering them, finding out just how important this landmass is and how it affects us all. Art will also follow the South American theme - watch this space for more exciting news.

Science

To start the year with a big bang, we will be studying the dinosaurs. In our first main Science topic, we will be learning about 'Living Things and their Habitats'. After the half term holiday we will be looking at 'Earth and Space'.

PE

PE will take place on Monday and Wednesday afternoons. Benchball, swimming (Monday) and tag rugby will form this term's programme of learning. To ensure children get the most out of their PE sessions we would like to remind you about the need to bring appropriate clothing for the activity and weather: blue/white t-shirt, blue shorts, warm outer clothing (tracksuit) and trainers which tie. Please supply a hair bobble for children with long hair. It's important, please, for children to bring their PE kits on a Monday morning and take them home on a Friday afternoon. All jewellery - including earrings - needs to be removed prior to PE sessions.

Homework

Please see the reverse of this sheet for a homework timetable that will begin on the week commencing Monday 11th September.

We thank you again for your continued support. Your help with regular reading, spellings and homework will make a huge difference and is much appreciated.

Yours Sincerely

Mrs Biddles, Mr Watson and Ms Ulett.
